Petlife conficlean²

Foam Hand Scrub

Conficlean2 Hand Scrub is a powerful blend of single medium chain length and double long chain length cationic biocides, formulated with non-ionic detergents, emollients and pH regulators to give a foaming powerful skin cleansing disinfectant which is non-irritant and does not de-grease the skin. Unlike other hand scrubs

Conficlean2 Hand Scrub is alcohol free is unscented and is formulated to produce a stable foam when dispensed to maximise efficacy and economy. The unique formula of Conficlean2 Hand Scrub is kind to the hands, non-corrosive, non-sensitising and does not stain.

Foam Hand Rub

Conficlean2 Hand Rub is formulated from a blend of 3 powerful biocides, emollients and pH regulators to impart a wide range of disinfection coupled with a high degree of user friendliness.

Conficlean 2 Hand Rub is kind to the hands, non-staining has a pleasant citrus aroma and possesses powerful cleansing properties in addition to it's strong disinfection ability. These properties allow Conficlean2 Hand Rub to be used in situations where water is unavailable and hand washing is impossible, so allowing hand disinfection for up to 5 times before washing is necessary. The non-irritant, emollient based formula dries quickly allowing
