- ♥ Safe on all surfaces and materials, even skin
- ♥ Does not contain aldehydes.

Petlife

Petlife conficlean²

Conficlean2 High Level Disinfectant is designed to help with health & hygiene around both people and animals. It is available as a concentrate, in a ready-to-use form, and in packs of handy wipes. It can be used in all areas where there is a need to control health challenging microbes: veterinary surgeries, kennels, catteries, zoos, operating theatres, and by animal breeders.

Conficlean2 is a blue liquid which when diluted to 1% solution rapidly kills/inactivates viruses, bacteria and fungi. It is effective against a wide range of infectious organisms, including Canine Parvovirus, Feline Panleucopenia virus, Feline Calicivirus, Salmonella sp, Pseudomonas aeruginosa, E Coli, Staphylococcus aureus, Bordetella bronchiseptica, MRSA, Candida sp, Aspergillus niger. It will inactivate both parvovirus and calici virus on all surfaces (including skin), and yet it has a very high degree of safety to people and animals, and is particularly kind to the environment. It does not contain aldehydes. **Conficlean2** is a powerful detergent, as well as disinfectant, and will cleanse all surfaces while disinfecting – saving you time (and hence money).

Use **Conficlean2** in all areas where there is any risk of cross infection and contamination. It is non-corrosive, so can be used on all stainless steel surfaces, plastic-coated & galvanised wire netting, concrete flooring, lino etc. it is non-staining and non-bleaching, so will not affect fabrics, colourings or paintwork.

Kennels and animal enclosures, kitchen areas

Brush clean the area, and then spray or mop with **Conficlean2** (1% solution). Rub into badly soiled areas and then rinse with clean water to remove soiling. **Conficlean2** is a powerful detergent and will clean as well as disinfect, breaking down solid matter and the build up of dirt & grease on walls.

Feed bowls, water bowls, food preparation surfaces & utensils

Remove all solids from containers, and then wash with **Conficlean2** (1%). Rinse off with clean water.

Bedding, overalls, clothes, towels

Soak in **Conficlean2** (1%) prior to the normal wash cycle in your washing machine.

Grooming tables and equipment, toys, dog leads, collars

Clean tables, drying cabinets, brushes, combs, scissors, and clipper heads with **Conficlean2** (1%)

Quarantine areas, isolation areas

Brush clean, and wash with **Conficlean2** (1%). It can also be used at (1% solution) as an aerial spray mist disinfectant (fogging) to help stop the spread of infection e.g. cat 'flu, kennel cough etc. Animals can remain in residence – there is no need to remove them.

Litter trays, animal transportation - animal carriers, cat baskets, dog pens, & vehicles

Wash with 1% **Conficlean2**

Reception/ hospitality areas

Use for floors and walls, basins, WC's, shower trays,, etc.
